Academic Integrity

BEHOLD!
the building blocks to
your academic success

**TRUST
RESPECT
HONESTY
FAIRNESS
RESPONSIBILITY**

First and **foremost**, we need to run you through a little bit about academic integrity. Yes, yes, I know, but it's very important so make sure you **listen up!**

As a student, it's important to follow these **building blocks** to get the most out of your journey and better prepare yourself for the future.

For your convenience, I've highlighted some things to avoid doing to maintain integrity as a **super star student** on the following pages!

Scan to read more about Academic Integrity!

EASY AI WITH CHIRPY
PLANNER
NOTES

1. Collusion

Collusion - in a nutshell - is the act of getting **unauthorised help** from your mates or any third party on an assessment task. This includes file sharing to collaboratively work on sections that **aren't group tasks**.

Rookie Errors

Don't work on collaborative files with your friends!

As tempting as it is to see them thrive due to your (amazing) help, this is a **collusion breach** and could get you in trouble.

2. Plagiarism

Plagiarism means to **copy** the work of another's and claim it as your own. Believe it or not, it's also possible to plagiarise your **OWN WORK!** So make sure you're presenting authentic and original work every time, my friends.

Don't share your work with friends!

Rookie Errors

Even if your intentions are in the right place, they may plagiarise your work, putting both of you at risk of **academic infringements**.

3. Contract Cheating

Contract cheating is to hire a **third party** to write or complete your assessment for you. This often can have very negative extended impacts to both your student and professional career. So **BE WISE**, my friend!

Rookie Errors

Don't forget to plan plan and plan!

Planning ahead can really help you manage time and make climbing the assessment mountain that much easier. Luckily for you, **this very item** you have in your grasp will help you with just that!

4. Cheating in Exams

Cheating in exams is fairly self explanatory and includes **helping** or **receiving help** from another student in completing an exam. Make sure when you're doing an exam you **do not** receive external help!

Don't forget to reference as you go!

There's nothing worse than having to do this right when you think you're done.

1. Collusion

IN A SCENARIO

Chirpy wouldn't use others to get to the finish line...

Neither should ***YOU!***

Take it
ONE STEP
at a time

**HONEST WORK IS
MORE VALUABLE!**

2. Plagiarism *IN A SCENARIO*

**Chirpy wouldn't
steal someone else's
precious gem...**

DON'T TAKE THE RISK
stealing other people's
hard work.

**EASY AI WITH CHIRPY
PLANNER
NOTES**

Chirpy wouldn't cut the branch and risk falling...

***DON'T RIP OFF
YOUR OWN WORK***

**THE MORE *HARD WORK* YOU SOW,
THE MORE *YOU WILL GROW!***

2a. Self-Plagiarism

IN A SCENARIO

3. Contract Cheating IN A SCENARIO

Chirpy wouldn't buy
from someone shady in
an alleyway...

Don't pay other people
to do *your work*

**BELIEVE IN
YOURSELF!**

Chirpy
wouldn't help
himself to
someone else's
drink,

Don't do that with **OTHER
PEOPLES** exam answers.

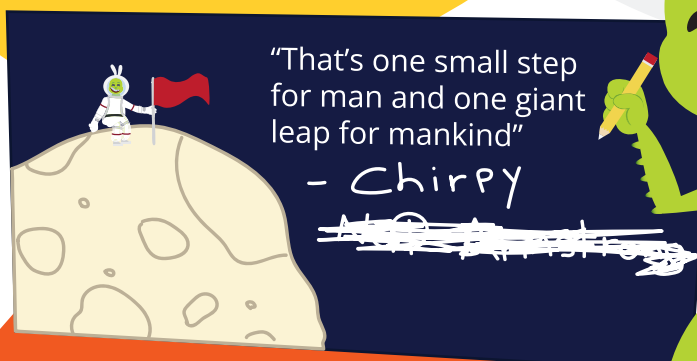

FOCUS ON WHAT'S
IN FRONT OF YOU
AND TRY YOUR
HARDEST

4. Exam Cheating IN A SCENARIO

**Chirpy wouldn't lie
about his life story,**

So ***DON'T LIE*** in your work either

**BEING THRUTHFUL AND
GENUINE WILL NEVER GO
OUT OF STYLE!**

**Don't forget to
reference as
you go!**

Chirpy's Takeaways

A few key learnings you should
always remember throughout
your studies!

**Plan
Plan
Plan!**

**Don't re-use
your own
work!**

Don't share documents with your mates!

There are Consequences

Academic Integrity breaches are **very serious** and can have major **negative impacts** to your study and further professional lives.

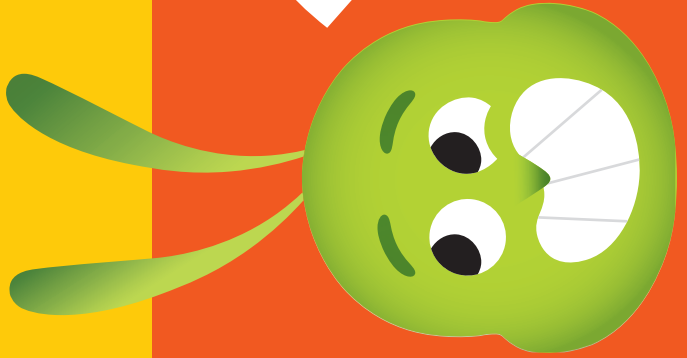

These include failing a subject or course, expulsion, and even criminal charges. If you follow my advice and **act with integrity** though, you shouldn't have anything to worry about!

Collaborative documents on a solo project is a breach
